Abstract of JP2003081782

PROBLEM TO BE SOLVED: To provide a hair cosmetic material improving the hand touch feeling of the hair damaged by a chemical treatment such as permanent and bleach treatments, hair coloring, etc., and imparting a good feeling such as a moist feeling, smoothness, etc., to the hair, and a hair cosmetic containing the same agent. **SOLUTION:** This hair cosmetic material contains the hair touch feeling- improving agent containing a transition metal hydroxycarboxylic acid salt as an active ingredient.
